## THE SPORTS PAGE

Congratulations to the 8T2 Blades for giving Medicine their first men's championship in two years by defeating MBA Bucks 25-13 and 7-6 last week. Led by the fingertip catches of Tom "Marfan-Man" Minas and the swift feet of Jay (bird) "I'm open Sol" Moss, the Blades captured the Men's Intramural Touch Football Championship with an outstanding 10 win-1 loss season. With the sure hands of Joe "I'm sorry Sam" Sertic and the high-stepping of Bill "My shoulder hurts" McKeough, the Blades finished first in a league composed of 67 teams. Under the scrutiny of Rod "I need new shoes" Tanaka, Rum "Nobody gets behind me" Saplys and Tim "This is my fifth season and I'd better win this time" Kramer, the Blades defence bent but never broke. Congratulations also to that grizzly veteran Sol "They think I can't go long, eh?" Stern and the Blades Captain Sam "The Franchise" Gerstein for their tremendous play and generous financial support of the intramural referees. Well Done!

Hello out there in Medical School land, -tired of humdrum lectures? Well, on Monday Nov. 24 from 12:30 to 1:30 in the Medical Science Auditorium the Medical Society brings you another exciting speaker. Dr. Leo Strunin from Foothills Hospital in Calgary will present "Anaesthesia- just a wiff of gas?". Dr. Strunin is well-known in his field, and has been visiting Toronto to hospitals this week. He is spending this weekend in Toronto specifically because he was asked to lecture to the Medical Students. He is an entertaining and humorous speaker (yes Edith-anaesthetists can be funny) and his lecture should prove to be fascinating.

What can be said about the typical 22-year-old student in Uof T Medical School? Does he have obsessive-compulsive traits or feelings of frustration, self-doubt and inadequacy? To find this out, and specifically how closely this description compares to you, Elliot Weiss, Howie Rudner and Barry Engelhardt will be distributing an important questionnaire to all 1st, 2nd and 3rd year students in cooperation with DSME (Division of Studies in Medical Education). The results will be posted in the Medical Journal.

Don Baumann's Spot Diagnosis

(Barry Engelhardt-consultant)

An 11-year-old girl walks into your office complaining of arthralgia, fever, nausea, vomiting and diarrhea for two weeks following a sore throat. On examination, the patient appears like this:

Diagnosis?

At the annual budget meeting of the Medical Society, \$2214 was collected to subsidize this year's Formal. Excluding the yearbook (for which funds were approved by referendum last year) this was the fourth largest single item on the budget. Larger amounts were allocated only to the Journal (\$5240), Alexander Park (\$2500) and Men's Athletic Assoc (\$2341, though \$2900 was requested). Other activities were supported with comparatively small sums (Arts and Letters \$830, Camera Club \$650, Auricle \$510). These activities certainly contribute more to our school than the Formal, yet their budgets were kept within 10% of what they were last year or less, thus restricting their activities.

With the \$2214 subsidy, the ticket price will be \$37.50 a couple. A total of 352 people can be accommodated, of which slightly more than half will be medical students. This means a subsidy of almost \$7 per person attending the Formal is coming out of the students fees paid by each of the 1000 students in the faculty. Thus, if you don't attend the Formal, you will be paying \$2.21 to subsidize someone else's ticket. In effect, we are even subsidizing people outside the faculty to the tune of \$7 for one evening's entertainment.

The Formal is of unquestionable enjoyment to some people in the faculty, and there is no doubt that it should be an annual event. The question is not whether the Formal is worthwhile, but whether spending \$2214 on it is a good use of your money, given that many other activities are making do with far less. At \$37.50 a couple attendance is already financially inaccessible to a good number of students. It is unlikely that raising the price to \$50 would significantly alter the response.

At the meeting, a motion was made to the effect that no money be given for the Formal, and that it should be made a self-supporting event. This was defeated, with only five members supporting it. At the same meeting, requests by Men's Athletic Assoc and the Camera Club for more funds to support their activities were turned down!

It seems that all the organizations supported by Med Soc are scrambling to keep down costs simply to maintain their activities of previous years, let alone expand their horizons. There can be little doubt that the money set aside for the Formal could serve more students of this faculty in better ways, if it were distributed to other organizations supported by Med Soc. In this respect, the best interests of the students

of this faculty are not being served by its elected representatives. A petition, requesting reconsideration of this budget's item, is planned in the near future. Be sure to sign it and tell your representative how you feel your money should be spent.

### Bryce's Burger Bar

What's that you say? -This can't be a Burger Bar if all we serve are limp french pancakes and Borsch! Well, that just 'aint so! This place happens to serve the finest broiled beef this side of the Rockies (my Mom serves the best on the other side!). So hop to 'yer pans boys and help yourself to...

### Bryces Bar Burger

1 egg  
1 lb. ground beef  
1 diced medium onion  
half cup finely ground bread crumbs  
quarter cup catsup  
1 tbsp mustard  
half tsp garlic powder  
half tsp black pepper  
2 tsp worcester sauce

Mash all of the above together and fry the slabs, covering each with cheese and then drop them into a bun loaded with the essentials: lettuce tomato and avocado plus assorted guck. Put on yer "never loses a drop" bib, shut your eyes and best of luck!
